

Skyline Events & Socials – Priority Client Catalog

At Balloons Over Atlanta, we value our partnership with Skyline Events & Socials and are proud to offer you priority client status. This means your events are always a priority for our team—no need to check availability. We guarantee service for your installs and are committed to supporting you seamlessly, whether you're planning well in advance or working on a fast turnaround.

This custom catalog has been designed to help you quote your clients quickly and confidently. Inside, you'll find a curated selection of your most frequently requested items along with simplified pricing guidance to streamline your process.

For delivery, setup, and strike, we've created a **Standard Install and Strike Rate of \$225** to make quoting fast and consistent. This rate is designed for ease of client quoting. Some smaller or more straightforward installs may fall below this range, while larger-scale installations, complex logistics, early load-ins, or extended strike times may adjust slightly based on event specifics—we'll always confirm those details with you in advance.

To further simplify your workflow, you can submit estimate and invoice requests directly through your dedicated portal:

👉 <https://www.balloonsover.com/priority-client-portal/skyline>

Your portal also includes **direct contact information for your dedicated sales representatives and on-site decorator lead**, giving you immediate access to our team whenever you need support.

You're also always welcome to email us—whatever is most convenient for you. That said, portal submissions are prioritized and placed at the top of our queue to ensure the fastest possible turnaround.

Our goal is simple: to make your quoting process easier while ensuring every Skyline event is executed at the highest level.

We look forward to continuing to create standout experiences together.

Custom Event Design, Fabrication & Rentals

Custom-built backdrops, branded environments, and full event installations designed and produced in-house.
